

Recycling Guidelines

Deffenbaugh provides curbside residential recycling within the Kansas City metropolitan area and collects a wide range of recyclable materials. We encourage all residents to recycle as much as possible. Together, we can work to help protect the environment and to ensure a greener future for our communities.

For more information on Deffenbaugh's residential recycling services, please call 913-631-3300.

How Should Recyclable Materials Be Set Out?

Deffenbaugh will pick-up an unlimited amount of recyclables from each home. We provide the initial recycling bin to homeowners at no cost. Alternatively, homeowners can use their own containers, including trash barrels. These containers need to be well marked with "RECYCLING" or the universal recycling symbol.

- Recyclables can be commingled loosely in the recycling bin
- **Corrugated cartons should be cut or reduced to 2' X 2' and placed under the recycling bin**
- All containers should be thoroughly rinsed
- Labels are okay
